Claims 1 – 7

Claim 1. (Once amended) A coagulant composition which comprises

- 1) an inorganic coagulant comprising an aluminum component and a calcium component and
- 2) an organic coagulant comprising sea brown algae.

Claim 2. (Once amended) The coagulant composition according to claim 1, wherein the inorganic coagulant comprises 0.1 to 5 parts by weight of the aluminum component and 90 parts by weight of the calcium component.

Claim 3. (Once amended) The coagulant composition according to claim 1 wherein the aluminum component is aluminum sulfate.

Art Unit: ***

Claim 4 (Once amended) The coagulant composition according to claim 1 wherein the calcium component is selected from the group consisting of the powdery shells, gypsum powder and calcium carbonate or mixtures thereof.

Claim 5. (Once amended) The coagulant composition according to claim 1 wherein the calcium component comprises gypsum powder.

Claim 6. (Once amended) The coagulant composition according to claim 5, wherein the calcium component is a mixture of shell powder and gypsum powder at a ratio of 2:8 to 5:5.

Claim 7. (Once amended) The coagulant composition according to claim 1, wherein the sea brown algae of the organic coagulant is a sea tangle powder or the extract thereof.

Claims 8 & 9 (cancelled)

Add Claims 10 – 13

— Claim 10. The coagulant composition according to claim 2, wherein the aluminum component comprises aluminum sulfate.

Claim 11. The coagulant composition according to claim 2 wherein the calcium component is selected from the group consisting of the powdery shells, gypsum powder and calcium carbonate or mixtures thereof.

Claim 12. The coagulant composition according to claim 2 wherein the calcium component comprises gypsum powder.

Claim 13. The coagulant composition according to claim 12 wherein the calcium component is a mixture of shell powder and gypsum powder at a ratio of 2:8 to 5:5. —
